### Qualifications:

Over the course of Leslie's professional career, she has participated in a wide variety of landscape architectural projects involving industrial, commercial, low, medium and high-density residential development, as well as streetscape design, remediation projects and naturalization areas.

Her extensive and diverse project experience has helped Leslie develop a broad range of skills and an eye for detail in each stage of design and construction administration. Leslie's passion for the outdoors and design, combined with her work experience has gifted her the ability to successfully design any type of property and create long-lasting professional relationships with each client.

Leslie is exceptionally organized and well versed in project management and overall administration. She excels at liaising with municipalities and other governing agencies. Each of these qualities provides her with a unique skillset and ability to adapt to each project and client's specific requirements, making her a valuable member to any design team.
