### **Qualifications:**

Upon initially obtaining her education in the field of Interior Design, Shannon gained valuable experience in residential design and development with a strong focus on construction detailing. Shannon's strong interest in the architectural world and the built environment led her to pursue her education by obtaining a degree in Environmental Design / Architecture.

Passionate about nature and outdoor spaces all her life, Shannon combines her interests in the exterior world with her technical knowledge and formal training to broaden her experience in Landscape Architecture.

Shannon is exceptionally driven and thrives on managing teams to complete projects efficiently. Over the course of Shannon's diverse career, she has developed fantastic creative problem solving skills, and a practical approach to designing and managing industrial, commercial, low, medium and high-density residential development, as well as streetscape design, naturalization projects and municipal parks, which makes her an exceptional member of any design team.
